

Md Mohsin

Full Stack Developer

+8801682645400 | mdmohsin.web@gmail.com | [Portfolio_](#) | [GitHub](#) | linkedin.com/in/md-mohsin-dev/

PROFILE

Passionate Full-Stack Developer skilled in building responsive, scalable, and user-friendly web applications. Experienced in developing both frontend interfaces and backend systems using modern technologies. Focused on creating clean, efficient, and secure solutions while delivering seamless user experiences and continuously improving development skills.

EDUCATION:

Karimganj Sobhania Kamil Madrasha

Fazil (Bachelor Equivalent) in Islamic Studies

Kishoreganj, Dhaka

2026–Present

SKILLS:

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Nodejs, Next.js Tailwind CSS,

Backend: Postgres, Prisma Node.js, Express.js, MongoDB,

PROJECTS:

SwiftMove | [Live link](#) [GitHub Repository](#)

- Developed SwiftMove, a full-stack courier management system with role-based access control for users, riders, and administrators.
- Implemented parcel booking, rider application/approval workflow, parcel assignment, delivery tracking, and real-time status management.
- Built interactive dashboards with analytics, delivery statistics, earnings tracking, and secure authentication using Firebase, JWT, MongoDB, Express.js, and React.

Law.Bd | [Live link](#) [GitHub Repository](#)

- Developed a responsive lawyer appointment booking web application using React, allowing users to browse lawyer profiles, view details, and schedule consultations based on availability.
- Implemented client-side routing with React Router to navigate between pages such as lawyer details and booking management.
- Built appointment booking and cancellation functionality with local Storage to persist user booking data and dynamically display booked appointments.
